

Article ID: SPLIT-001

Synthetic Cohort Study of Editorial Workflow Timing

Authors: Alex Morgan, Priya Shah

Pages: 1-4

Synthetic issue page: 1

A synthetic study block used to demonstrate article boundary metadata.

Article ID: SPLIT-001

Synthetic Cohort Study of Editorial Workflow Timing

Authors: Alex Morgan, Priya Shah

Pages: 1-4

Synthetic issue page: 2

A synthetic study block used to demonstrate article boundary metadata.

Article ID: SPLIT-001

Synthetic Cohort Study of Editorial Workflow Timing

Authors: Alex Morgan, Priya Shah

Pages: 1-4

Synthetic issue page: 3

A synthetic study block used to demonstrate article boundary metadata.

Article ID: SPLIT-001

Synthetic Cohort Study of Editorial Workflow Timing

Authors: Alex Morgan, Priya Shah

Pages: 1-4

Synthetic issue page: 4

A synthetic study block used to demonstrate article boundary metadata.

Article ID: SPLIT-002

Rule-Based Detection of Article Headers in Journal Issues

Authors: Maya Chen

Pages: 5-8

Synthetic issue page: 5

A synthetic methods block for illustrating deterministic extraction output.

Article ID: SPLIT-002

Rule-Based Detection of Article Headers in Journal Issues

Authors: Maya Chen

Pages: 5-8

Synthetic issue page: 6

A synthetic methods block for illustrating deterministic extraction output.

Article ID: SPLIT-002

Rule-Based Detection of Article Headers in Journal Issues

Authors: Maya Chen

Pages: 5-8

Synthetic issue page: 7

A synthetic methods block for illustrating deterministic extraction output.

Article ID: SPLIT-002

Rule-Based Detection of Article Headers in Journal Issues

Authors: Maya Chen

Pages: 5-8

Synthetic issue page: 8

A synthetic methods block for illustrating deterministic extraction output.

Article ID: SPLIT-003

Integrity Checks for Article-Level CSV and JSON Exports

Authors: Jon Bell, Nora Kim

Pages: 9-12

Synthetic issue page: 9

A synthetic validation block showing SHA-256 metadata integrity checks.

Article ID: SPLIT-003

Integrity Checks for Article-Level CSV and JSON Exports

Authors: Jon Bell, Nora Kim

Pages: 9-12

Synthetic issue page: 10

A synthetic validation block showing SHA-256 metadata integrity checks.

Article ID: SPLIT-003

Integrity Checks for Article-Level CSV and JSON Exports

Authors: Jon Bell, Nora Kim

Pages: 9-12

Synthetic issue page: 11

A synthetic validation block showing SHA-256 metadata integrity checks.

Article ID: SPLIT-003

Integrity Checks for Article-Level CSV and JSON Exports

Authors: Jon Bell, Nora Kim

Pages: 9-12

Synthetic issue page: 12

A synthetic validation block showing SHA-256 metadata integrity checks.
